6 DISTRICT COURT OF GUAM
7 TERRITORY OF GUAM

17

10 CARMEN KATHERINE RODRIGUEZ,

11 Plaintiff,

12 vs.

CIVIL CASE NO. 02-00033

13 JOSEPH E. MASTERS,

14 Defendant.

15
16 Plaintiff has obtained legal counsel but it appears that court papers are not yet completed by the
17 required date of Monday, July 7, 2003 due to an overwhelming caseload. It is uncertain whether this
18 case will be heard in District Court since the plaintiff no longer is employed by DoDEA, so therefore,
19 this case may most likely be removed to Superior Court since Plaintiff still seeks injunctive relief
20 under 7 G.C.A 20302, alleging that the Defendant has intentionally caused injury to the Plaintiff
21 and the Plaintiff is still in fear of imminent injury despite medical treatment by two doctors.

22 Plaintiff is alleging that Defendant has provided false information to United States Attorney
23 Frederick Black and Assistant U.S. Attorney Mikel W. Schwab in order to protect his job by clouding
24 the true issue of physical and emotional abuse under the guise of a labor dispute between a federal
25 employee and her federal supervisor. The labor dispute in existence is currently being remedied through
26 the EEOC in San Francisco. The terrorizing and assault that occurred on 11 October 2002 was the
27 Defendant's last desperate attempt to coerce the Plaintiff to drop the hearing, especially since Donald H.
28 Rumsfeld, Secretary of Defense, is listed as the Defendant, an embarrassment to him and his colleagues.

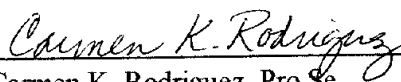

1 As this case unfolds, the court will find that the Defendant purposefully misled law authorities
2 and will be found to have provided false information and obstructed justice all to protect his employment.

3 As one says in our culture, "Ti mamaigu' si Yuus." The truth will ultimately be heard much to the
4 dismay of many DoDEA officials as well as to Attorneys Black and Schwab.

5 As soon as the papers are completed, they will be filed immediately within the proper Court.

6
7 SUBMITTED this 7th day of July 2003.

8 Sincerely,

9
